PM Connect

Summary

Our ambition is to develop a strong, vibrant, and unified voice of the project manager to help the Commonwealth deliver projects better – meeting business and technical objectives and ensuring that the Commonwealth receives maximum return on its project investments.

The PM Connect forum provides a venue for Commonwealth project managers, of all skill and experience levels, to engage in a free and hopefully fun exchange on all things related to managing projects in this exciting but challenging environment – ideas, approaches, career development, skill-building, issues, risks, problems, concerns, etc.

PM Connect Committee Members
